

PRINT & APPLY LABELERS

APPLICATOR SERIES

This is a versatile Printer / Applicator that will integrate with all major brands of print engines. The applicator is operated by a PLC and adjusted through a touch panel control. The labeling head may be configured for a wide variety of applications. These configurations include tamp apply, blown-on, tamp/blow, swing tamp, multi panel tamp and an all electric version. A complete compliment of options is available to include an alarm package, and detection devices.

STANDARD FEATURES

- U arm style mounting that allows the labeler to be mounted from the top, bottom or side of the product.
- 12" O.D. tension controlled label unwind / supply reels. Larger unwinds available as an option.
- Rewind motor with adjustable tension control.
- Touch panel controls for adjustments such as product delay and tamp dwell. These controls allow for ease of set up and operation.
- The applicator is PLC controlled. An expansion device is used to allow for the simple integration of an alarm package or external triggers.

AVAILABLE OPTIONS

- Complete alarm package to include: End of label, approaching end of label, Printer out of ribbon and Low printer ribbon. This package includes amber, red, and green alarm lights.
- Upgrade to larger label unwinds and wider web widths.
- Swing tamp kit for front and multi panel applications.
- Can be linked to bar code readers and data acquisition systems.
- All electric kits that do not need compressed air

SPECIFICATION SUMMARY:

Large Bins

Heavy Jugs

WORLD-CLASS SERVICE & SUPPORT:

We understand downtime and its effect on your bottom line. Packaging machinery is only as strong as its service and support system. If you run into challenges, All-Fill's Service team consists of 15 full time service employees with over 150 years of combined experience in the packaging industry. Our team can train, install, and troubleshoot any All-Fill machinery. We service domestically and in our international territories: Canada, Central and South America, India, China and Australia. Contact our Service team at Service@all-fill.com.

PARTS SUPPORT:

All-Fill machines are designed using the most innovative controls and the highest quality parts and components. All-Fill has an unmatched ability to identify and resolve issues that may arise with your machine. Our parts department provides quality support in a timely manner to reduce your downtime and stocks most parts for quick delivery. From mechanical assemblies, electronic components, tooling, machine accessories and software, we have the parts you need. Contact our Parts Department at AFI-parts@all-fill.com.

INTERNATIONAL INQUIRIES:

All-Fill's packaging machinery is available worldwide for almost any product and industry. Our more than 50 years of engineering expertise combined with our industry leading field support makes us a leader in the industry. We design, manufacture, install and service machinery with maximum accuracy and reliability. Our global presence means uncompromising service and support, no matter what or where your needs are. Reach out today to discuss your project with our international sales team. Contact us at info@all-fill.com.
